In re Patent Application of:
James M. ALLEN

Application No.: 09/731,941

Confirmation No.: 6840

Filed: December 6, 2000

Art Unit: 1635

For: PACKAGING CELL LINES FOR
GENERATION OF HIGH TITERS OF
RECOMBINANT AAV VECTORS

Examiner: B. Whiteman

PETITION TO ACCEPT AN UNINTENTIONALLY DELAYED CLAIM FOR
PRIORITY UNDER 37 C.F.R. § 1.78(a)(3)MS Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant petitions under 37 C.F.R. § 1.78(a)(3) for acceptance of an unintentionally delayed claim for priority under 35 U.S.C. § 120. Applicant also submits payment of the petition fee under 37 C.F.R. 1.17(i).

Priority Claim

Applicant filed the instant application on 12/6/00. On the same day, Applicant filed a Preliminary Amendment claiming priority to certain prior applications without specifying the relationship between the PCT application and the U.S. applications to which it claimed priority. Applicant submitted an Amendment on 8/17/04 which specifically described the relationships between the PCT application and its priority applications. The Examiner stated in the Notice of

02/07/2005 MAHME1 00000037 031952 09731941

01 FC:1454 1370.00 DA

pa-953113

Allowance mailed 12/2/04 that Applicant had failed to specify the relationship between these priority applications within the requisite time period.

Due to Applicant's mistake, perfection of the priority claim was delayed. The entire delay in filing the required amended priority claim, from the due date for the required claim under 37 C.F.R. § 1.78(a)(2)(ii) until the filing of a grantable petition under 37 C.F.R. § 1.78(a)(3), was unintentional.

Copendency between the PCT application and two prior U.S. applications

The Examiner stated in the Notice of Allowance mailed 12/2/04 that the instant application was not entitled to the priority date Applicant claimed because "U.S. patent applications 08/480,575 (no effective filing date because the application was never completed) and 08/350,219 (expressly abandoned on 6/22/95) were not copending when PCT/US95/15892 was filed 12/6/95." The Examiner did not contest the copendency of any other application in the priority chain.

Applicant respectfully disagrees with the Examiner, and respectfully submits that the PCT/US95/15892 was copending with U.S. Ser. No. 08/480,575, which was copending with U.S. Ser. No. 08/350,219.

Applicant respectfully notes that U.S. Ser. No. 08/350,219 (the '219 application) was filed on 12/6/94 with the specification, claims, drawings and fees. The declaration was filed 1/23/95 with the surcharge. The '219 application was abandoned on 6/22/95.

U.S. Ser. No. 08/480,575 (the '575 application) was filed on 6/7/1995, prior to the abandonment of the '219 application. The '219 application was filed with the specification, claims, drawings, and fees. Thus, the '219 application is entitled to a filing date as set forth under 37 C.F.R. § 1.53(b). Applicant received a Notice to File Missing Parts mailed 7/24/95, giving "one month from the date of [the] letter, or two months from the filing date of [the] application, whichever is later, within which to file all required items and pay any fees required

above to avoid abandonment." On 12/14/95, Applicant paid a processing and retention fee, as well as a Request for Extension of Time in the amount of \$700. A Notice of Abandonment was mailed to Applicant on 7/3/96. Since the '575 application is entitled to a filing date under 37 C.F.R. §1.53(b), the filing fee set forth under 37 C.F.R. §1.16 was paid, and the processing and retention fee set forth under 37 C.F.R. §1.21(l) were paid within the time period set forth in 37 C.F.R. §1.53(f), it is proper for PCT/US95/15892 to claim priority to the '575 application under 37 C.F.R. §1.78(a)(1)(ii) and (iii).

Applicant respectfully notes that PCT/US95/15892 filed 12/6/95 was copending with the '575 application. An Extension of Time in the amount of \$700 was paid on 12/14/95. Applicant's Transmittal does not state the period of time covered by this extension fee. However, Applicant's representative spoke with Valerie Kinard in the Office of Initial Patent Examination on January 31, 2005, who located a fee schedule from 1995. Ms. Kinard stated that, for a small entity in 1995, \$700 purchased four additional months beyond the default one month period from the mailing date of the Notice. Thus, the extension added four months to the 8/24/95 initial due date, and the application was not abandoned until 12/23/95.

In view of the above, copendency existed between PCT/US95/15892 and the '575 application, and between the '575 application and the '219 application.

Conclusion

In each application in the chain of the priority claim filed 8/17/04, the application claimed priority to a prior application which was copending with that application. In each instance the priority claim was proper. Further, Applicant has now submitted a petition to accept an unintentionally delayed claim for priority and the requisite fee to perfect the amended priority claim which Applicant submitted on 8/17/04.

The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 C.F.R. § 1.78(a)(3) was unintentional. Therefore, upon receipt of this petition and payment of the requisite fee, Applicant respectfully requests that the Examiner grant this application the 12/6/1994 priority date.

Applicant authorizes the Commissioner to charge any additional fees under 37 C.F.R. §§ 1.17 that may be required by this petition, or to credit any overpayment, to Deposit Account No. 03-1952 referencing docket no. 226272001403. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.
